THE WASHINGTON MARKET CONTROVERST-TRUMPH
OF THE CITY OVER THE STATE AND ITS LESSES,
James B. Taglor, &c., ag. The City of New York.
ROSSEVELL, J.—The Corporation of the city, it appears, laving filled in the pict of about four hundred
and sixty feet square, constituting the water front of
the old Washington Market, and constructed a bulkhead and piers in occurection with it gave permits from
time to time to various persons (more than one hundred and eighty in number) to erect upon it temporary saids for the sete of meats and vegetables, "the
respective occupants" paying, as the complaint avers, respective compatts' paying, as the companint avers, a "weekly" sum of reat" for the use thereof.

On the 24th of April, 1858, while the city was thus in

presession of the premises, c siming the ownership and receiving from them, a revenue, in the aggregate exceeding \$50,000 per annum, the Commissioners of the Land-Office, in the rame of the People of the State, for reasons not very satisfactorily explained in the pupers before the Court, and seemingly without notice to pers before the Coart, and seemingly without notice to the city an incities, executed to James B. Taylor and Owen W. Brennan, two of the plintiffs, a lease of the whole plot at a rent for one year of \$5,000, and with a covenant, if vanil, binding the State to maintain them (the two tessees in peaceable and quist pressenting. Immediately upon the execution of this lease, Taylor and Brennan, in their own names alone, instituted an electment or quasi-ejectment against the city and its list trantato indemnify themselves for the \$5,000 availe by them into the State Trasauty, by withdrawing ten times that are not and some from the Trasauty of the city—a not minimparant person of the State.

The complaint, in use original shape, being some found to be deferily, an anomaled one was fined, making the people of the State co-plantiffs, and praying among other things, in addition to "the rendering of possessing to the pointiffs (that is the people and Taylor and Breman), or to earn of them as shall be decreased with the temperature.

It will thus be seen, without reform not to another feature in the transaction to which I shall present's advert, that Taylor and Brentan, in one year, necover in round numbers \$50,000 on an audity of \$6,000 and the feature of the same amount of new norm of moments have of the same almost stage, sworth more than a milhor, without a first, and offer the paintiffs, or two of them, at least, has voluntarily elacontinued the suit as analost the oily, and atmitted it to be transacted by "paying the casts" of the defense. To make the argument still stronger, however, there is an express statute, we cally no the subject "of gravities" land under water (1 K. S. 180), applying as well to lease for one or more years, as to convey ances in fee.

"The Commissioners' of the Lend-Office," says that statute, "shall now power to grant, in perpetuity or other size, so much of the lame ander the waters of heaving the rive is or takes as they shall deem necessary to granter the commerce of this Solte, or of the lam a under the waters of wavigable rivers of these as they shall deem necessary to promote the commerce of this State, or proper for the purpose of beneficial enjoyment of the same by the adjacent owners, but no such grant shall be made to say person other than the proprietor of the adjacent lands and any The grant, therefore, to Taylor and Wennison, out of which this litigate a lies spring, and on which the injunction and receivership and final judgment rat, is a direct violation and receivership and final judgment rat, is a direct violation of law, and not only of dubling violation trat, is a direct violation of law, and not only of dubling violation, the City and it certainly is not be determined, as in this case has been attempted, by the loans conversations inaccountely reported of compress offinishes whatever, I say, may be the City's title, Taylor and Brennan, it is clear, are not authorized to call it in question. They have no standing in Court.

So moch for the Sara's grantees. As no the granters, or rather the assumed agants of the granters, their opinion on the subject, as already checked, may be measured by comparing the \$1,000 for which they sold the right for one year, with the \$70,000 within they say they "proved" the root for one year (on the right) to be worth.

There is still another objection to be considered. This suit, it is a parent, although the same of the people has been made that a state on the subject. If action of ejectower in the nume of the people, as peculally declares it R. S. 100 that "no such suit shall be commerced for the benefit of individual witness the consent of the Athorny General, unless the individual witness the consents of the authorny General, unless the individual witness the consents of the authorny General, unless the individual witness the consents of the proofs.
